### HP65 & 91 Series

## Absorbent Hand Printer

Model Shown: HP91C

Stock Printers are equipped with JMD's RIBtype® Die System & Microcell Roll.

### FEATURES

- Lightweight anodized aircraft aluminum frame.
- Sealed ball bearings for smooth print drum rotation. (Continuous printers)
- Impact resistant plastic handle - Extension handles are available.
- Re-inkable Microcell roller.
- Eccentric adjustment for ink roll to die face contact.

JMDs Hand Printers are designed to provide an efficient, manual method of printing date codes, product I.D.'s, lot numbers or other shipping & handling data. This lightweight hand coder is ideal for use in the shipping room or the warehouse where automatic coding is not possible.

Heavy duty construction includes an anodized aircraft aluminum frame, sealed ball bearings and an eccentric ink roller adjustment. Standard features include a dry Microcell re-inkable roll and JMD's versatile RIBtype® die fastening system. Printer die's make changing codes & other data quick and easy, minimizing costly down time.

These units are designed for use with #1150 coder ink for marking on cardboard and other absorbent materials. A variety of other inks are available for special applications.

Continuous Hand Printers continuously print at repeat intervals equal to the drum circumference. The print drum on the reset printer returns to the same start position after each rotation, allowing for accurate print registration.

*Custom sizes are available for special applications.*

*Note: The absorbent Hand printer's are not recommended for regular usage with alcohol based inks.*

### SPECIFICATIONS

#### HP65C Small Continuous Model

Print Area Approximately 2" x 6.5"  
A: 8.4" (213 MM) B: Circumference = 6.5" (165 MM)  
Net Weight - 1 LB. 11 OZ. (.77 KG)

#### HP91C Large Continuous Model

Print Area Approximately 2" x 9"  
A: 9.3" (236 MM) B: Circumference = 9.1" (231 MM)  
Net Weight - 1 LB. 11 OZ. (.77 KG)

#### HP91R Large Reset Model

Print Area Approximately 2" x 9"  
A: 9.3" (236 MM) B: Circumference = 9.1" (231 MM)  
Net Weight - 1 LB. 10.5 OZ. (.74 KG)
